OBJECTIVE

I am a full stack web development student at HENRY with experience in front-end and back-end application development. My goal is to join a dynamic and growing company where I can expand my skills and find my first job in the IT area. I am a person passionate about learning with great ability to work in a team and adapt to different contexts.

EXPERIENCE

HENRY STUDENT

Henry | De octubre de 2022 a la fecha

- Bootcamp with +800 hours studying Practical-Theoretical, development of Font-end, Back-end and Full-stack applications using technologies such as: JavaScript | HTML | CSS | React | ReactJS | Redux | NodeJS | Express | MongoDB | Postgres |

PI-COUNTRIES
Henry | 2022

- This application allows you to see information from different countries using the external restcountries api and from it you can, among other things:

- Search countries
- Filter / Sort them

Rick_and-Morty_app
Henry | 2022

this web app was built with React, javascript and css, consumes to the Rick and Morty API, in addition to this it has functions like:
- login
- Search bar
- Filters
- Like button

Weather-app
Henry | 2022

This project it's a applica that consumes https://openweathermap.org/api API to provide information of the weather in the city that you're looking for in real time.
It's all React whith JavaScript, HTML and CSS, and SweetAlerts when there's no coincidence between what you're searching and the API data.
